Do you want to help Bemidji become more dementia-friendly? A dementia-friendly community is informed, safe, and respectful of people with Alzheimer’s disease, and offers services and support for these people and their caregivers. The ACT on Alzheimer’s Bemidji Action Team invites all community members to join us for a meeting on Thursday, March 26, from 5:00-7:00 p.m. at Adult Day Services. The Action Team has been working for the past nine months to bring a diverse group of people together, and to complete a community assessment determining gaps in support and services, and broad priority areas for action. In this process, team members completed 38 surveys with local businesses, employers, financial institutions, health care providers, attorneys, financial planners and community organizations. The data from these surveys has been compiled and reviewed, resulting in the identification of five priority areas for action. We encourage interested community members to join us on March 26 to determine priority action steps to implement in Bemidji in coming months. If you are a person living with Alzheimer’s or dementia or their caregiver, you are especially invited to attend and share your experiences!
